## Our Facilities

## Proximity to End Markets

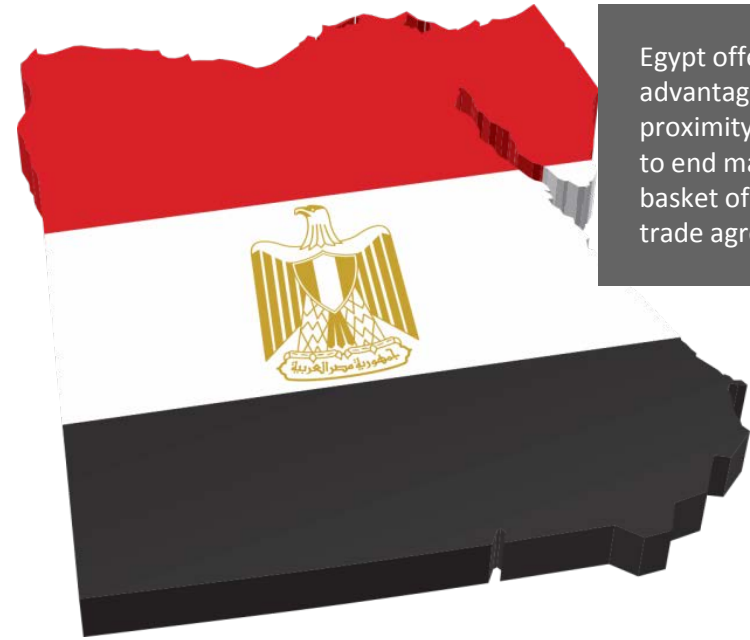

- Egypt's location allows a **competitive lead time** on shipments and relatively **low transportation costs**
- Close proximity to end markets enables Arafa Holding to **respond quickly** to seasonal shifts in demand and changes in consumer tastes

## Low Cost Environment

- Egypt offers a **sizeable young labor force**, with over 50% of the population under the age of 30, at a relatively low cost compared to other emerging markets that operate in the labor-intensive Apparel & Tailoring segment
- Costs of inputs for **infrastructure** and **utilities** are among the least expensive in the region

## Preferential Trade Agreements

- A number of preferential trade agreements — including agreements with the United States, the European Union, COMESA, Turkey and the GCC countries — position Egypt as a **prominent hub for export-oriented companies**

Egypt offers advantages including proximity & low-cost to end markets and a basket of beneficial trade agreements

## Gov't Incentive Programs

- The government maintains the **long encouraged export activity**, a policy management anticipates will continue
- Egypt's free zones offer **tax incentives to export-oriented manufacturers**; Arafa's manufacturing facilities in free zone areas allow it to benefit from these incentives.

# Overview on Egypt's Ready-Made Garments (RMG) Industry

- RMG sector is the key player within the textile & apparel sector with the **majority privately owned**.
- Main export regions include **USA & Europe**, which contributed **49% & 34%** respectively in **July 2018**.
- Sector benefits from government support due to being a labor intensive sector and a source for foreign currency inflows.
